# LOOP TO LEAP TRANSFORMATION TOOL

## THE LEAP -

Creation - taking action to create what we *do want*

The Vision - What Does the Ideal Experience look like, sound like, feel like?

Who am I BEING - what qualities am I embodying & expressing - at my BEST?

[Example: Ample income from each client (higher rates enable expanded support)]

---

---

---

---

---

*WHAT CAN BE*

### Instructions:

Start with either The Leap (Vision) or The Loop - by capturing your initial thoughts & ideas. For each element in The Loop (what you *don't* want), transform into The Leap form (what you *DO* want) SEE EXAMPLES

You'll be amazed how often you believe you're "thinking positive" - but by using this simple tool to check, you can instantly shift out of The Loop, and back into your True Leap.

## THE LOOP -

"Problem-Solving" - reacting to eliminate what we *don't want*

Current Circumstances

"Problems" - Crises - Fire Drills

Recurring Patterns of "Reasons Why Not"

[Example: Not able to take on more clients, need more income]
